

# NOTRAX®

MATS FOR PROFESSIONAL USE

Notrax® – Mats for Professional Use offers a range of ergonomic, entrance, anti-fatigue, and safety mats for industrial, commercial and food service environments. Today, Notrax® is recognized as one of the largest integrated manufacturers of floor matting products in the world.

# Notrax® Collection

### Anti-slip

Matting designed to provide added traction through aggressive surface patterns and textures

### Floor protection

Absorbs impact, reduces breakage and protects floors

### Modular system

Interlocking mats allow for easy on site customization and configurations

### Insulation

Protects against cold floors, vibrations and noise

### Heavy traffic

Recommended for use in heavy traffic entranceways

### Anti-fatigue

Matting that alleviates foot pressure, stimulates blood circulation and helps reduce stress on the neck and lower back

### Medium traffic

Recommended for use in medium traffic entranceways

### Custom

Mats available in custom sizes and/or lengths

### Outdoor use

Heavy-duty construction designed to act as a first line of defense against tracked-in dirt by scraping, soil and moisture from shoes

### Oil/Grease

Matting suitable for contact with oils, grease and animal fats

### Drainage

Open construction matting allows for liquids and debris to pass through, providing secure footing in wet environments

### Cleaning

Suitable for cleaning with high pressure (hot) power-washer

### Food processing

Matting suitable for use in food processing, plants/area where exposure, greases and oils are common

### Food service

Matting suitable for use in kitchen, bars and other food service area

### Welding

Matting designed to withstand exposure to sparks in areas where welding takes place

### Cold resistant

Material formulated to withstand freezing temperatures

### Fire retardant

Matting designed to resist the spread of fire and withstand heat, tested and certified by independent laboratories

### Anti-static

Formulated to absorb static electricity

## 040 Slabmat Carré

### Features & Benefits

Indestructible  
Shock Absorbing  
3ft x 3ft tiles  
Tough rubber compound  
Overall thickness: 1/2" thick

**Available Colors:** Black

The Slabmat Carré is a durable product designed for dry areas where heavy industrial equipment is stored. It is also suitable for gyms, weight rooms, skating rinks, golf courses, trailers and stables. This indestructible rubber mat absorbs shock from falling objects and protects floors as well as equipment. The textured top surface provides traction and limits slip hazards. These interlocking mats allow on-site customization. Units of 3ft x 3ft tiles can be easily laid out from wall to wall or as islands, in any shape or direction. If it is necessary to add bevelling be sure to allow outside and inside corners.

## 041 Slabmat Carré Safety Ramps

### Features & Benefits

100% tough rubber compound  
Beveled edges prevent tripping.

**Available Colors:** Black, Yellow

Male and Female Slabmat Carré Safety Ramps are available in black and yellow. At 3 ft long, they create a smart safety bevelling solution that minimizes trip hazards. When adding bevels be sure to allow for an outside and inside corner.

# 117 Heritage Rib®

**Available**

**Colors:** Red/Black, Charcoal, Brown, Grey, Hunter Green

## Features & Benefits

Heavier-weight double rib high/low design - performs the scraping function of the mat (Note: ribs run length of mat)

24 ounces of needle-punched yarn per square yard  
Overall thickness of 3/8 inch to perform in narrow clearance doorways

Vinyl backing helps reduce mat movement  
Custom lengths available (3', 4', and 6' widths)

This medium to heavy traffic entrance mat is intended for areas that need extra moisture retention and scraping action and has 33% more carpet than many competitors' "best" rib mats.

# 118 Arrow Trax™

**Available Colors:** Charcoal, Autumn Brown, Grey, Burgundy, Hunter Green

## Features & Benefits

High/low herringbone carpet design is attractive and functional - Scrapes debris and channels it away from shoes regardless of traffic flow

38 ounces of needle-punched yarn per square yard provides the highest degree of crush resistance in heavy traffic areas

Vinyl backing helps reduce mat movement

Recommended product as a part of the GreenTRAX™ program for "Green Cleaning" environment

Custom lengths available (3', 4', and 6' widths)

Arrow Trax™ mats provide exceptional performance in highly visible areas that require a subtly attractive yet functional matting product

# 119 Arrow Trax™ Antimicrobial

**Available Colors:** Charcoal, Autumn Brown, Hunter Green

## Features & Benefits

Antimicrobial formula resists most Gram positive and Gram negative bacteria

High/low herringbone carpet design is attractive and functional - Scrapes debris and channels it away from shoes regardless of traffic flow

38 ounces of needle-punched yarn per square yard provides the highest degree of crush resistance in heavy traffic areas

Vinyl backing helps reduce mat movement

Offers all of the same durability, functional benefits, and aesthetic appeal as the original.

Intended for use in high traffic areas

# 125 Evergreen Diamond™

**Available Colors:** Brown, Blue, Charcoal, Gold

## Features & Benefits

Carpet fibres made from 100% recycled material

25 ounce tufted loop pile carpet for increased moisture retention

3/8 inch overall thickness for use in narrow clearance doorways

Vinyl backing helps reduce mat movement

Recommended product as a part of the GreenTRAX™ program for "Green Cleaning" environments

Custom lengths available (3', 4', and 6' widths)

## 131 Dante™

**Available Colors:** Navy, Red/Back, Hunter Green, Burgundy, Brown, Charcoal

### Features & Benefits

Densely tufted cut-pile Decalon® construction - A step above the look-alikes and provides much greater moisture retention

24 ounces of tufted yarn per square yard

3/8 inch overall thickness for use in narrow clearance doorways

Vinyl backing helps reduce mat movement

Custom lengths available (3', 4', and 6' widths)

## 132 Estes™

**Available Colors:** Navy, Charcoal, Brown, Red/Black, Hunter Green, Burgundy

### Features & Benefits

Fashionable high-low looped pile Decalon® yarn

33 ounces of tufted yarn per square yard

Colors coordinate with #139 Boulevard™ for an upscale entrance matting system

Vinyl backing helps reduce mat movement

Recommended product as a part of the GreenTRAX™ program for "Green Cleaning" environments

Custom lengths available (3', 4', and 6' widths)

## 136 Polynib™

**Available Colors:** Charcoal, Slate Blue, Brown, Hunter Green, Grey

### Features & Benefits

Tightly nabbed loop construction entraps debris and hides it for an always elegant appearance

- 24 ounces of needle-punched yarn per square yard
- 1/4 inch overall thickness for use in narrow clearance doorways
- Vinyl backing in corresponding colors helps reduce mat movement
- Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments
- Custom lengths available (3', 4', and 6' widths)

## 137 Opera™

**Available Colors:** Burgundy, Brown, Hunter Green, Charcoal Black, Gray, Blue

### Features & Benefits

All yarns are color-coordinated to combine beauty with functionality

Dense combination of scraping and absorbent yarns ensure maximum performance

3/8 inch overall thickness for use in narrow clearance doorways

Vinyl backing helps reduce mat movement

Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

## 138 Uptown™

**Available Colors:** Navy, Charcoal, Brown, Red/Black, Hunter Green, Burgundy

### Features & Benefits

High/low looped pile design provides functionality for drying and retaining moisture and debris  
40 ounces of tufted yarn per square yard  
Colors coordinate with #139 Boulevard™ for an upscale entrance matting system  
Vinyl backing in corresponding colors helps reduce mat movement  
Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments  
Custom lengths available (3', 4', and 6' widths)

## 139 Boulevard™

**Available Colors:** Navy, Charcoal, Brown, Red/Black, Hunter Green, Burgundy

### Features & Benefits

High-low wave design of alternating Decalon® drying yarn and Decalon® yarn wrapped with tough mono-filament for ultra-aggressive scraping  
40 ounces of tufted Decalon® yarn per square yard  
Colors coordinate with #138 Uptown™ for an upscale entrance matting system  
Vinyl backing in corresponding colors helps reduce mat movement  
Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments  
Custom lengths available (3', 4', and 6' widths)

## 141 Ovation™

**Available Colors:** Brown, Black, Burgundy, Gray, Blue

### Features & Benefits

Generously tufted Decalon® looped pile construction  
This mat is the third section of the OPERA™ mat  
Vinyl backing helps reduce mat movement  
Can be used as a stand-alone mat, or as the third section (Drying) of the “Stages” entrance matting system  
Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments (When used as part of the “Stages” system)  
Custom lengths available (3', 4', and 6' widths)

## 145 Preference™

**Available Colors:** Brown, Blue, Hunter Green, Burgundy, Red/Black, Charcoal

### Features & Benefits

A combination of scraping and looped pile Decalon® drying yarns in a mini-checked pattern  
Vinyl backing in corresponding colors helps reduce mat movement  
Custom lengths available (3', 4', and 6' widths)

## 146 Encore™

**Available Colors:** Brown, Black, Burgundy, Gray, Blue

### Features & Benefits

A combination of scraping and looped pile Decalon® drying yarns in a linear pattern  
 Vinyl backing helps reduce mat movement  
 Can be used as a stand-alone mat, or as the second section (Scraping & Drying) of the “Stages” entrance mat system  
 Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments (When used as part of the “Stages” system)  
 Custom lengths available (3', 4', and 6' widths)

## 150 Aqua Trap®

**Available Colors:** Burgundy, Brown, Slate Blue, Grey, Hunter Green, Charcoal, Red/Black

### Features & Benefits

Molded bubble pattern facilitates scraping and drying  
 Aqua Dam™ border retains moisture and debris  
 Carpet-to-the-edge construction to blend with its surroundings  
 Anti-Microbial carpet treatment stops bacteria and germs at the entrance  
 26 ounces of tufted yarn per square yard  
 Rubber underside cleat design resists mat slippage  
 Available in continuous lengths up to 60 feet  
 Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments  
 Custom lengths available (3', and 4' widths)

## 161 Barrier Rib™

**Available Colors:** Burgundy, Brown, Slate Blue, Gray, Hunter Green, Charcoal, Red/Black

### Features & Benefits

- Molded dual-ridge cross-rib pattern (A NoTrax® exclusive) facilitates scraping and drying
- Aqua Dam™ border retains moisture and debris
- Carpet-to-the-edge construction to blend with its surroundings
- Anti-Microbial carpet treatment stops bacteria and germs at the entrance
- 26 ounces of tufted yarn per square yard
- Rubber underside cleat design resists mat slippage
- Available in continuous lengths up to 60 feet
- Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments
- Custom lengths available (3', and 4' widths)

## 166 Guzzler™

**Available Colors:** Burgundy, Brown, Slate Blue, Hunter Green, Charcoal, Red/Black

### Features & Benefits

- High/low waffle pattern facilitates scraping and keeps moisture and debris away from foot traffic
- Raised rubber border on all 4 sides traps moisture and debris for easy removal
- Molded rubber cleats on the bottom of the mat grip underlying surfaces and minimize mat movement
- 26 ounces of tufted yarn per square yard
- 3/8 inch overall thickness for use in narrow clearance doorways
- Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

## 167 Portrait™

**Available Colors:** Burgundy, Brown, Slate Blue, Hunter Green, Charcoal

### Features & Benefits

High/low parquet pattern facilitates scraping and keeps moisture and debris away from foot traffic

Raised rubber border on all 4 sides traps moisture and debris for easy removal

Molded rubber cleats on the underside of the mat grip underlying surfaces and minimize mat movement

26 ounces of tufted yarn per square yard

3/8 inch overall thickness for use in narrow clearance doorways

Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

## 168 Opus™

**Available Colors:** Burgundy, Brown, Slate Blue, Hunter Green, Charcoal

### Features & Benefits

High/low diamond pattern facilitates scraping and keeps moisture and debris away from foot traffic

Raised rubber border on all 4 sides traps moisture and debris for easy removal

Molded rubber cleats on the underside of the mat grip underlying surfaces and minimize mat movement

26 ounces of tufted yarn per square yard

3/8 inch overall thickness for use in narrow clearance doorways

Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

# 170 Orientrax™

**Available Colors:** Sapphire, Emerald, Burgundy, Mocha

## Features & Benefits

Combines the classic look of an upscale rug with the function and durability of a high performance entrance mat  
 24 ounces of twisted nylon fibre per square yard provides superb moisture absorption and retention  
 A heavyweight non-slip backing ensures minimum movement  
 Vibrant color designs that won't fade • 3/8 inch overall thickness

# 193 Superior Impact™ Logo Mat

## Features & Benefits

Dye-injection process for long lasting, vibrant color  
 Color palette of 22 base colors  
 Anti-slip backing to minimize mat movement  
 24 ounces of cut-pile nylon yarn per square yard provides increased moisture retention  
 Custom sizes available, minimum quantity required (Call Customer Service for details)

# 194 Safety Message Mats

Safety Message mats make your safety message loud and clear while keeping facilities cleaner and safer.

## Features & Benefits

- 14 pre-printed messages to choose from
- Highly visible colors and graphics for immediate identification
- 24 ounce nylon top surface provides excellent moisture absorption and retention
- Heavy duty vinyl backing reduces mat movement
- Select messages also available in Spanish

## 231 Prelude™

**Available Colors:** Brown, Black, Burgundy, Grey, Blue

### Features & Benefits

A coarse loop-twisted non-absorbent fiber to scrape and retain debris from foot traffic  
 This mat is the first section of the OPERA™ mat  
 A heavyweight vinyl non-slip backing ensures minimum movement  
 Can be used as a stand-alone mat, or as the first section (Scraping) of the “Stages” entrance matting system  
 Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments (when used as part of the “Stages” system)  
 Custom lengths available (3', 4', and 6' widths)

## 265 Wayfarer™

**Available Colors:** Grey, Black, Brown, Leaf Green, Navy

### Features & Benefits

Vinyl-looped construction traps dirt and moisture while scraping debris  
 Color-coordinated thick vinyl backing to resist mat movement  
 Factory compressed borders  
 Designed to dry quickly and resist mildew  
 Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments  
 Custom lengths available (3', and 4' widths)

## 266 Wayfarer™ Custom

**Available Colors:** Grey, Black, Brown, Leaf Green, Navy

### Features & Benefits

Heavy-duty vinyl-looped construction traps dirt and moisture while scraping debris  
Open un-backed design allows moisture and dirt to pass through the mat  
Factory compressed borders  
Designed to dry quickly and resist mildew  
Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments  
Custom lengths available (3', and 4' widths)

## 267 Wayfarer™ Custom HD

**Available Colors:** Grey, Black, Brown, Leaf Green, Navy

### Features & Benefits

Heavy-duty vinyl-looped construction traps dirt and moisture while scraping debris  
Thick vinyl backing to resist mat movement  
Factory compressed borders  
Designed to dry quickly and resist mildew  
Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments  
Custom lengths available (3', and 4' widths)

## 323 Smart Step™ wArrow Trax™

**Available Colors:** Autumn Brown, Charcoal Black, Gray, Hunter Green

### Features & Benefits

Alternating rows of ribbed vinyl and carpet strips scrape and dry the foot traffic

38 ounce per square yard Arrow Trax™ carpet matting strips

Can be used in foyer recess - depth of 3/8" to 1/2" – allow 9/16" door clearance

Can be placed directly on floor – allow 9/16" door clearance

Perforated vinyl sections available to facilitate drainage (recommended for recess areas only)

Mat is factory assembled to your custom size specification

Orders must be accompanied by a sketch clearly indicating width, length and direction of traffic flow

All mats larger than 12 feet by 22 feet will be made in 2 or more sections

Vinyl tiles made from 100% recycled PVC

## 325 Smart Step™ wDecalon®

**Available Colors:** Burgundy, Brown, Black, Gray, Blue

### Features & Benefits

Alternating rows of ribbed vinyl and carpet strips scrape and dry the foot traffic

Cut pile Decalon® carpet matting strips

Can be used in foyer recess - depth of 3/8" to 1/2" – allow 9/16" door clearance

Can be placed directly on floor – allow 9/16" door clearance

Perforated vinyl sections available to facilitate drainage (recommended for recess areas only)

Mat is factory assembled to your custom size specification

Orders must be accompanied by a sketch clearly indicating width, length and direction of traffic flow

All mats larger than 12 feet by 22 feet will be made in 2 or more sections

Vinyl tiles made from 100% recycled PVC

## 340 Soil Guard™

**Available Colors:** Black

### Features & Benefits

Heavy-duty, durable rubber compound withstands harsh weather

Low profile for door clearance / cart traffic

Raised bar design scrapes debris from shoe traffic

Easy to clean – simply hose off

Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

## 345 Rubber Brush™

**Available Colors:** Black

### Features & Benefits

Tough, SBR rubber remains flexible while withstanding extreme cold

Thousands of flexible rubber fingers sweep shoes clean

Suction cups on underside help to minimize mat movement

Molded bevelled edging on all 4 sides creates a retention dam to trap moisture

Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

## 346 Sani-Trax®

**Available Colors:** Black

### Features & Benefits

Tough rubber compound resists most chemicals and variations in temperature

Thick containment border allows mat to hold a full gallon of disinfectant solution

Thousands of flexible rubber fingers provide scrubbing action

Suction cups on underside help to minimize mat movement

## 350 Soil Guard W Grip-Step™

**Available Colors:** Black

### Features & Benefits

Heavy-duty, durable rubber compound withstands harsh weather

Low profile for door clearance / cart traffic

Raised bar design scrapes debris from shoe traffic

Grit surface for added traction

Easy to clean – simply hose off

Recommended product as a part of the GreenTRAX™ program for “Green Cleaning” environments

## 370 Master Trax™

**Available Colors:** Burgundy, Hunter Green, Charcoal, Navy, Light Brown, Dark Brown, Grey, Red/Black\*Note: Additional colors available upon request

### Features & Benefits

- Oversized product for high traffic entrances & foyers
- 52 ounces of needle punch yarn per square yard
- 100% solution dyed UV stabilized polypropylene fibers
- Berber design carpet surface
- Heat-sealed borders are standard - Optional beveled edge borders are available for a more gradual transition
- Available in a wide variety of classic and aesthetically pleasing colors to match any decor
- Non-skid rubber backing to help minimize mat movement
- Can be used for recessed areas

## 406 Razorback™ w/Dyna-Shield®

**Available Colors:** Grey, Black, Black/Yellow

### Features & Benefits

- NoTrax® exclusive Dyna-Shield® top surface manufactured directly into the mat for long lasting protection
- Outperforms competitive products in tear resistance and tensile strength - extends service life by as much as 50%
- Corrugated top surface texture with ribs that run side-to-side for added traction and is easy to sweep clean
- All four sides are beveled to minimize trip hazards
- Custom lengths available (2', 3', and 4' widths)

# 372 Master Trax™ Tiles

CARDINAL RED    STEEL BLUE    ROSEWOOD    COIR    HUNTER GREEN    STERLING

GARNET    MIDNIGHT BLUE    CHOCOLATE    TAUPE    AUTUMN    BLACK SHADOW

BEIGE    PRISM    WALNUT    AZURE    LODÉN    GRIS/CHARCOAL

ZINC    VERDE GREEN    TEAK

## Features & Benefits

Individual tile size: 19.69" x 19.69"

Designed for use in large format areas and custom flooring applications

52 ounces of needle punch yarn per square yard

100% solution dyed UV stabilized polypropylene fibers

Berber design carpet surface

Available in a wide variety of classic and aesthetically pleasing colors to match any decor

Carton size: 12 tiles / 32.5 sq. ft.

Master Trax™ Tiles can stand up to the heaviest traffic areas such as hospitals, schools, airports, and office buildings. Tiles come in a wide variety of classic fashionable colors.

# 373 Master Guard™ Logo Mat

Master Guard™ is the ultimate heavy-duty indoor/outdoor logo mat. With 52 ounces of needle-punch yarn per square yard and a stylish berber carpet surface, Master Guard™ promotes your brand or message in the heaviest traffic areas. An all-weather non-skid backing, and UV stable polypropylene fibers allow for use outdoors, and high profile vinyl edging is available to reduce trip hazards.

## Features & Benefits

- All-weather indoor/outdoor mat with a non-skid backing
- Designed for use in large format/high traffic entrances
- 52 ounces of needle punch yarn per square yard
- 100% solution dyed UV stabilized polypropylene fibers
- Berber design carpet surface
- Heavy-duty edging reduces trip hazards and keeps mat flat and in position

# 410 Airug® Disposable

Available Colors: Grey

## Features & Benefits

Smaller individual size (2' x 2') allows for multiple mats to be used at a single time

Closed cell foam relieves leg and back discomfort

Provides barrier to cold floors

Ribbed surface texture provides good traction for surgical booties

All four sides are beveled to minimize trip hazards

Individually wrapped for cleaner more efficient storage

Packaging: 8-pack

The Airug® disposable surgical mat is an anti-fatigue floor mat that offers comfort and relief from leg and back pain during long surgical procedures. Surgeons and operating room staff routinely stand for extended periods of time without any anti-fatigue or ergonomic support.

# 413 Blade Runner™ w/Dyna-Shield®

Available Colors: Grey, Black, Black/Yellow

## Features & Benefits

NoTrax® exclusive Dyna-Shield® top surface manufactured directly into the mat for long lasting protection

Outperforms competitive products in tear resistance and tensile strength - extends service life by as much as 50%

Corrugated top surface texture with ribs that run with the mat for added traction and is easy to sweep clean

All four sides are beveled to minimize trip hazards

Custom lengths available (2', 3', and 4' widths)

Designed for use in medium duty dry work areas such as labs, packaging stations, and shipping departments where traffic flows along the length of the mat.

## 415 Pebble Step Sof-Tred™ w/Dyna-Shield®

**Available Colors:** Black, Black/Yellow

### Features & Benefits

NoTrax® exclusive Dyna-Shield® top surface manufactured directly into the mat for long lasting protection

Outperforms competitive products in tear resistance and tensile strength - extends service life by as much as 50%

Pebble-embossed non-directional top surface for added traction and is easy to sweep clean

All four sides are beveled to minimize trip hazards

Custom lengths available (2', 3', and 4' widths)

Designed for use in medium duty dry work areas.

## 416 Sof-Tred™ Antimicrobial

**Available Colors:** Grey, Black, Black/Yellow

### Features & Benefits

Antimicrobial formula resists most Gram positive and Gram negative bacteria

Closed cell foam relieves leg and back discomfort

Provides barrier to cold floors

Pebble-embossed non-directional top surface for added traction

Incorporates NoTrax® exclusive Dyna-Shield® top surface - increases tear resistance, tensile strength, and extends the service life of the mat by as much as 50%

Easy to wipe clean using most hospital grade cleaners and disinfectants

All four sides are beveled to minimize trip hazards

## 417 Bubble Sof-Tred™ w/Dyna-Shield®

**Available Colors:** Grey, Black, Black/Yellow

### Features & Benefits

NoTrax® exclusive Dyna-Shield® top surface manufactured directly into the mat for long lasting protection

Outperforms competitive products in tear resistance and tensile strength - extends service life by as much as 50%

Bubble design top surface maximizes worker comfort

All four sides are beveled to minimize trip hazards

Custom lengths available (2', 3', and 4' widths)

Designed for use in medium duty dry work areas such as labs, packaging stations, and shipping departments..

## 419 Diamond Sof-Tred™ w/Dyna-Shield®

**Available Colors:** Grey, Black, Black/Yellow

### Features & Benefits

NoTrax® exclusive Dyna-Shield® top surface manufactured directly into the mat for long lasting protection

Outperforms competitive products in tear resistance and tensile strength - extends service life by as much as 50%

Non-directional diamond-plate top surface for added traction

All four sides are beveled to minimize trip hazards

Custom lengths available (2', 3', and 4' widths)

Designed for use in medium duty dry work areas such as labs, packaging stations, and shipping departments..

# 420 Cushion-Dek™

Available Colors: Black

## Features & Benefits

Tough PVC compound molded with a raised pyramid design to enhance traction  
Made from 100% recycled PVC  
Slotted perforations (1/2" wide by 1-7/8" long) allow for moisture to drain from worker platform  
Studded bottom surface raises mat and allows for channelling of moisture and continuous aeration

# 422 Cush-Dek™ w/Grit-Step®

Available Colors: Black

## Features & Benefits

Tough PVC compound moulded with a raised pyramid design to enhance traction  
Made from 100% recycled PVC  
Slotted perforations (1/2" wide by 1-7/8" long) allow for moisture to drain from worker platform  
Studded bottom surface raises mat and allows for channelling of moisture and continuous aeration  
Grip-Step® - Thick gritted layer applied to the top surface for extremely slippery environments

## 431 SkymasterHD® i-Curve™ Ramp Nitrile

### Features & Benefits

100% nitrile rubber  
Bevelled edges prevent tripping  
Available in black and yellow  
For smart safety beveling solutions to minimize risk of tripping  
This nitrile ramp is designed for use with the SkymasterHD® i-Curve™ family of floor mats and provides a bevelled edge for easy access onto or off of the work platform. Made from a 100% nitrile base rubber compound these ramps are made for heavy duty dry industrial environments. All ramp lengths fit the male interlocking system of the mats.

**Available Colors:** Black, Yellow

## 440 Superfoam® Comfort

### Features & Benefits

Extra soft material for greater comfort and exceptional memory  
Made from a unique PVC/nitrile rubber foam blend that resists chemicals, greases, oils, and animal & vegetable fats  
High density material incorporates millions of tiny closed cells that won't absorb liquids  
Aggressive texture on both top and bottom for added traction while keeping mat in place  
Extremely lightweight - easy to move for cleaning  
Easy to clean with a mild degreaser and is even dishwasher safe  
All four sides are beveled to minimize trip hazards  
Non-allergenic, Silicone – free compound  
Custom lengths available (2', 3', and 4' widths)

**Available Colors:** Black

## 431 SkymasterHD® i-Curve™ Ramp Nitrile

### Features & Benefits

100% nitrile rubber  
Bevelled edges prevent tripping  
Available in black and yellow  
For smart safety beveling solutions to minimize risk of tripping  
This nitrile ramp is designed for use with the SkymasterHD® i-Curve™ family of floor mats and provides a bevelled edge for easy access onto or off of the work platform. Made from a 100% nitrile base rubber compound these ramps are made for heavy duty dry industrial environments. All ramp lengths fit the male interlocking system of the mats.

**Available Colors:** Black, Yellow

## 440 Superfoam® Comfort- Perforated

### Features & Benefits

Extra soft material for greater comfort and exceptional memory  
Made from a unique PVC/nitrile rubber foam blend that resists chemicals, greases, oils, and animal & vegetable fats  
High density material incorporates millions of tiny closed cells that won't absorb liquids  
Aggressive texture on both top and bottom for added traction while keeping mat in place  
Extremely lightweight - easy to move for cleaning  
Easy to clean with a mild degreaser and is even dishwasher safe  
All four sides are beveled to minimize trip hazards  
Non-allergenic, Silicone – free compound  
Small hole perforations to facilitate the removal of liquids and debris from the work surface  
Custom lengths available (2',3', and 4' widths)

**Available Colors:** Black

## 447 Comfort-Eze™

**Available Colors:** Black

### Features & Benefits

- Long-lasting rubber compound
- Moulded bubble design - offset on the top and bottom of the mat for maximum comfort
- All 4 sides feature a moulded bevelled border

## 448 Comfort-Eze™ Antimicrobial

**Available Colors:** Healthcare Green

### Features & Benefits

- Antimicrobial formula resists most Gram positive and Gram negative bacteria
- Offset bubble design on the top and bottom of the mat provides flex and enhances the ergonomic benefits
- Durable rubber top surface easy to wipe clean using most hospital grade cleaners and disinfectants
- All 4 sides feature a moulded bevelled border

Although intended for use in dry environments, the top surface design is easy to wipe clean and the durable rubber compound is highly resistant to many hospital grade cleaners and disinfectants so occasional spills can be cleaned up quickly and easily.

## 450 Ergo Evolution™

**Available Colors:** Black

### Features & Benefits

- High quality polyurethane - foam centre is soft yet supportive, thick outer skin protects against wear
- Closed cell foam construction will not absorb liquids
- Provides barrier against cold floors
- Ergonomically designed bubble top surface to maximize fatigue relief
- Beveled edges on all 4 sides to reduce trip hazards and allows easy access onto and off of mat
- Stain and chemical resistant surface easy to clean with common detergents and water
- Eco-friendly polyurethane blend does not contain hazardous chemicals, plasticizers, phthalates, or lead-based colors - made without the use of ozone-depleting fluorocarbons

## 461 SkymasterHD® Ramp Nitrile

### Features & Benefits

- 100% nitrile rubber
- Bevelled edges prevent tripping
- Allow inside and outside corners
- Available in black and yellow
- For smart safety bevelling solutions to minimize risk of tripping

**Available Colors:** Black, Yellow

The SkymasterHD® Ramp Nitrile is designed for use with the SkymasterHD® family of floor mats and provides a bevelled edge for easy access onto or off of the work platform. Made from a 100% nitrile base rubber compound these ramps are made for heavy duty dry industrial environments. All ramp lengths fit the male/female interlocking system of the mats.

## 470 Marble Sof-Tyle™

**Available Colors:** Blue, Gray, Beige, Black, Walnut

### Features & Benefits

Heavy-duty rubber marble-pattern top surface

Smooth attractive surface easy to sweep clean

Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology

UniFusion™ bond guaranteed for the life of the mat – See warranty for details

Sloped bevelled edges to reduce trip hazards and allows easy access onto and off of mat

Certified by the NFSI (National Floor Safety Institute)

RedStop™ non-slip backing to eliminate mat slippage • Custom lengths available (2',3', and 4' widths)

## 474 Ergo Mat™

**Available Colors:** Black

### Features & Benefits

Nitrile rubber blend top surface for added comfort, durability, and chemical resistance

Corrugated ribbed surface texture provides added traction and is easy to sweep clean

Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology

UniFusion™ bond guaranteed for the life of the mat – See warranty for details

Sloped bevelled edges to reduce trip hazards and allows easy access onto and off of mat

RedStop™ non-slip backing to eliminate mat slippage  
Custom lengths available (2',3', and 4' widths)

## 477 Woodgrain Sof-Tyle™

**Available Colors:** Cherry, Oak

### Features & Benefits

Smooth faux woodgrain vinyl top surface resists staining and easy to clean  
Dense closed cell foam base for comfort  
Bonded together using NoTrax® exclusive UniFusion™ technology - Bond guaranteed for the life of the mat (See warranty for details)  
Sloped bevelled foam on all 4 undersides for easy access onto and off of mat  
RedStop™ non-slip backing technology - eliminates mat slippage on smooth surface floors  
Custom lengths available (3' width)  
Woodgrain Sof-Tyle™ is the perfect anti-fatigue mat for dry environments where aesthetic appeal is a consideration such as upscale business environments, hotel lobbies, reception areas, office buildings, and retail stores.

## 479 Cushion Trax®

**Available Colors:** Gray, Black, Black/Yellow

### Features & Benefits

Long-lasting vinyl top surface made from 100% recycled materials  
Diamond-plate surface texture provides added traction  
Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology  
UniFusion™ bond guaranteed for the life of the mat – See warranty for details  
Sloped beveled edges to reduce trip hazards and allows easy access onto and off of mat  
Certified by the NFSI (National Floor Safety Institute)  
RedStop™ non-slip backing to eliminate mat slippage  
Custom lengths available (2', 3', 4' and 5' widths)  
Splicing option available for custom widths  
A uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

## 480 Pebble Trax™

Available Colors: Black

### Features & Benefits

- Resilient rubber top surface resists sparks from welding
- Pebble-embossed surface texture provides added traction and is easy to sweep clean
- Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology
- UniFusion™ bond guaranteed for the life of the mat – See warranty for details
- Sloped beveled edges to reduce trip hazards and allows easy access onto and off of mat
- RedStop™ non-slip backing to eliminate mat slippage
- Custom lengths available (2', 3', and 4' widths)

## 481 SkymasterHD® o-Curve™ Ramp Nitrile

Available Colors: Black, Yellow

### Features & Benefits

- 100% nitrile rubber
- Bevelled edges prevent tripping.
- Available in black and yellow.
- For smart safety bevelling solutions to minimize risk of tripping

## 482 Bubble Trax™

Available Colors: Black

### Features & Benefits

- Long-lasting vinyl top surface
- Bubble top surface texture provides added cushioning comfort
- Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology
- UniFusion™ bond guaranteed for the life of the mat – See warranty for details
- Sloped beveled edges to reduce trip hazards and allows easy access onto and off of mat
- RedStop™ non-slip backing to eliminate mat slippage
- Custom lengths available (2',3', 4' and 5' widths)

## 490 Dura Trax™

Available Colors: Black, Yellow

### Features & Benefits

- Nitrile rubber blend top surface for added comfort, durability, and chemical resistance
- Made from 100% recycled materials
- Diamond-plate surface texture provides added traction
- Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology
- UniFusion™ bond guaranteed for the life of the mat – See warranty for details
- Sloped beveled edges to reduce trip hazards and allows easy access onto and off of mat
- Certified by the NFSI (National Floor Safety Institute)
- RedStop™ non-slip backing to eliminate mat slippage
- Custom lengths available (2',3', and 4' widths)

## 520 Cushion-Lok™

**Available Colors:** Black,  
Black/Yellow

### Features & Benefits

A tough PVC based workstation mat made from 100% recycled materials (black only)

Porthole drainage system removes liquids and debris from worker platform

Raised footing design elevates the worker out of the spillage

Six-inch wide bevelled ramps are available to eliminate trip hazards and allows easy access onto and off of the work platform

Stock size mats have bevelled edges permanently affixed on 3 sides for a true workstation mat

Also available in an HD (Heavy-Duty) version with a reinforced bottom surface design for handling extreme weights

## 522 Cushion-Lok™ w/ Grip-Step®

**Available Colors:** Black,  
Black/Yellow

### Features & Benefits

A tough PVC based workstation mat made from 100% recycled materials (black only)

Thick gritted top surface layer for extremely slippery environments

Porthole drainage system removes liquids and debris from worker platform

Raised footing design elevates the worker out of the spillage

Six-inch wide bevelled ramps are available to eliminate trip hazards and allows easy access onto and off of the work platform

Stock size mats have bevelled edges permanently affixed on 3 sides for a true workstation mat

Also available in an HD (Heavy-Duty) version with a reinforced bottom surface design for handling extreme weights

## 523 Modular Lok-Tyle™

### Features & Benefits

Light-weight, modular, drainage design allows for use as flooring, or as shelf liners in food prep and bar areas

Raised diamonds on top surface facilitates drainage and aids traction

Bevelled Ramps and Corners available for a trip-free working platform

Tiles & ramps made from 100% recycled PVC (Black only)

NSF tested and certified (as shelf liners)

**Available Colors:** Black, Green, Blue, Yellow

## 531 Safety Grid™

**Available Colors:**

Black/Yellow, Black,  
Gray, Blue

### Features & Benefits

Duckboard design constructed of resilient vinyl

Creates an elevated platform keeping traffic away from moisture

Top of rails features a saw-tooth design for added traction

Custom lengths available (2', 3', and 4' widths)

perfect choice for locker rooms, showers and pool areas. The vinyl

compound resists chemicals, while providing an anti-slip surface and basic fatigue relief.

## 539 Web Trax™

### Features & Benefits

Industrial grade extruded PVC  
Oil and grease resistant  
Antibacterial treated materials for healthier and safer environment  
UV resistant  
Free of: DOP, DMF, Silicone, Heavy metals, Ozone depleting substances  
Custom lengths available (3', 4' widths)  
Web Trax™ is a multi-functional vinyl floor mat that can be used in a variety of wet applications. The wave pattern design creates a slip-resistant walking surface that increases traction on wet and slippery floors. Antibacterial PVC material prevents the growth of fungi or bacteria while the open structure design allows for easy draining of liquids. The industrial grade PVC compound also provides greater resistance to caustic chemicals, oils, and greases.

**Available Colors:** Blue, Grey

## 543 Cushion-Tred™

**Available Colors:** Black, Red

### Features & Benefits

Made from a heavy-duty resilient rubber compound  
A nitrile version is also available for use in food processing applications  
Flexible cushioning design provides maximum comfort  
Large hole configuration facilitates drainage and resists clogging  
Note: Mat has squared, not bevelled edges.  
Connector strips available to link multiple mats together creating a larger work platform

## 545 Diamond Top Interlock™

Available Colors: Black

### Features & Benefits

Solid rubber construction

Diamond-plate top surface pattern for added traction

A sturdy waffle support system on the underside for maximum worker comfort

Available in three versions:

As a single work station mat with bevelled borders on all 4 sides

As a mat with interlocking teeth on one end to serve as an "End" mat

As a mat with interlocking teeth on both ends to serve as a "Centre" mat

Note: Specify Ends, Centres or Singles when ordering

## 549 Safety Stance®

Available Colors:

Black/Orange, Black/Yellow

### Features & Benefits

100% Nitrile rubber compound withstands many common industrial cutting fluids, oils and chemicals

Large hole configuration facilitates drainage and resists clogging

Raised studs on top surface add traction

Coloured bevelled borders are permanently affixed to the mat and are available on 3 or 4 sides

Borders made from 100% nitrile rubber - same as the mat

Safety Stance® is made from a grease resistant rubber compound to withstand many of the more commonly found industrial cutting oils and chemicals. Particularly well suited for wet or dry work areas, Safety Stance® features a large hole drainage system with a mini-diamond studded top surface to minimize slippage.

# 550 Cushion-Ease®

Available Colors: Black, Red

### Features & Benefits

Made from a heavy-duty rubber compound

A unique multi-nib support design offers exceptional fatigue relief and aeration

Large hole drainage system keeps moisture and debris away from the worker platform

Easy to snap together modular matting system for on-site custom configurations

Optional nitrile rubber ramps available for trip-resistant platform (551 M.D. Ramp System®)

Available in 2 versions:

Black grease resistant mat - carries a 1-year warranty

Red grease-proof mat with extra nitrile content - carries a 3-year warranty

Can be mixed and matched with any of the Cushion-Ease® family mats •

Red version manufactured with MicroStop™ anti-microbial rubber compound - inhibits growth of bacteria and fungi

# 551 M.D. Ramp System®

Available Colors: Black, Orange, Yellow, Terra Cotta

### Features & Benefits

The M.D. Ramp System™ is designed for use with the Cushion-Ease® family of floor mats and provides a beveled edge for easy access onto or off of the work platform.

Made from a 100% nitrile base rubber compound M.D. Ramps also come in a wide variety of specialty rubber compounds to match the properties of the various Cushion-Ease® products such as fire retardant, anti-bacterial, and brake fluid resistant. All ramp lengths fit the male/female interlocking system on the mats and are beveled and melded with metered corners and a protruding tab that locks together the two adjoining ramps for a secure, professional corner. Square edges can be achieved by trimming off the mitre using the cut line on the bottom of the ramp.

# 556 Cushion-Ease® Solid

Available Colors: Black, Red

### Features & Benefits

Made from a heavy-duty rubber compound

A unique multi-nib support design offers exceptional fatigue relief and aeration

Solid top design with an anti-slip surface texture

Easy to snap together modular matting system for on-site custom configurations

Optional nitrile rubber ramps available for trip-resistant platform (551 M.D. Ramp System®)

Available in 2 versions:

Black grease resistant mat - carries a 1-year warranty

Red grease-proof mat with extra nitrile content - carries a 3-year warranty

Can be mixed and matched with any of the Cushion-Ease® family mats

Red version manufactured with MicroStop™ anti-microbial rubber compound - inhibits growth of bacteria and fungi

## 557 Cushion-Ease® Ergo™

### Features & Benefits

- Made from a heavy-duty rubber compound
- A unique multi-nib support design offers exceptional fatigue relief and aeration
- Solid bubble-top design for added ergonomic comfort
- Anti-slip surface texture
- Easy to snap together modular matting system for on-site custom configurations
- Optional nitrile rubber ramps available for trip-resistant platform (551 M.D. Ramp System)
- Can be mixed and matched with any of the Cushion-Ease® family mats

**Available Colors:** Black

## 558 Cushion-Ease® ESD Solid

**Available Colors:** Black, Red

Cushion Ease Solid™ ESD is an Electro Static Discharge (ESD) protective mat that is formulated to drain static electricity from workers to safeguard against static shocks and protect equipment. A rubber, anti-slip pebble top surface provides excellent traction. The 3' x 3' snap together tiles allow for easy, on-site customization. This mat is compatible with our patented MD-Ramp System™.

### Features & Benefits

- ESD static dissipative
- High quality natural rubber
- Easy to assemble and customize
- Anti-slip pebble surface
- Attachable bevels

## 562 Sanitop®

**Available Colors:** Black, Red

Sanitop® is made from a durable rubber compound designed to withstand harsh chemicals while creating a slip resistant surface. An alternating large and small hole drainage system channels liquid and debris away from the work area further enhancing the traction of the mat. Moulded in bevelled edges on all four sides eliminates trip hazards. Sanitop® offers a simple, economical solution for wet environments in many industrial or food service applications.

## 580 Sorb Stance™

**Available Colors:** Black

Sorb Stance™ is the first modular anti-fatigue mat designed specifically for combined use with a sorbent pad in environments where pooling liquids can create a safety hazard. Made from a 100% Nitrile rubber compound, Sorb Stance™ is extremely resistant to chemicals, cutting fluids, oils and greases commonly found where sorbent pads are used. This unique mat offers anti-fatigue relief utilizing a raised footing system design on the underside of the mat that provides cushioning comfort and aeration.

590 Master Flex D23™

591 Master Flex C23™

592 Master Flex D12™

593 Master Flex C12™

Available Colors: Black, Red

C23

D12

C12

D23

**The 590 Master Flex™ D23** modular rubber mat tile has an open octagonal construction with large drainage holes and a thickness of 1 inch. The Master Flex™ D23 system offers all the benefits of a matting tile that is easily installed, rearranged or replaced. What makes it revolutionary is the interlocking system that creates a durable and completely seamless connection that can be effortlessly installed. The 20 in x 20 in tiles cover sizeable areas easily and can be assembled on-site for installation in recessed frames in large entrances. Made from a durable natural rubber compound that is inherently resilient, anti-slip and withstands the heaviest foot traffic. The mat has excellent adherence and adapts to any surface while the raised studs underneath allow water to easily drain through, keeping the surface clean and dry.

**The Master Flex™** system offers all the benefits of a matting tile; it is easily installed, rearranged or replaced. What makes it revolutionary is the interlocking system that creates a durable and seamless connection that can be effortlessly installed without glue. The 591 Master Flex™ C23 matting system comes with our durable Master Trax™ carpet inserts. The 20 in x 20 in tiles cover sizeable areas easily and can be assembled on-site for installation in recessed frames in large entrances. This product is made from a durable natural rubber compound that is inherently resilient, anti-slip and withstands the heaviest foot traffic. The mat has excellent adherence and adapts to any surface while the raised studs underneath allow water to drain through, keeping the surface clean and dry.

**The 592 Master Flex™ D12** modular rubber mat tile has an open construction with small drainage holes. The Master Flex™ system offers all the benefits of a matting tile; it is easily installed, rearranged or replaced. What makes it revolutionary is the interlocking system that creates a durable and seamless connection that can be effortlessly installed without glue. The 20 in x 20 in tiles cover sizeable areas easily and can be assembled on-site for installation in recessed frames in large entrances. This product is made from a durable natural rubber compound that is inherently resilient, anti-slip and withstands the heaviest foot traffic. The mat has excellent adherence and adapts to any surface while the raised studs underneath allow water to drain through, keeping the surface clean and dry.

Designed for pedestrian traffic. Not suitable for carts with extremely heavy loads.

**The 593 Master Flex™ C12** matting system can be completely personalized with a large selection of carpet inserts in a variety of colors. The Master Flex™ system offers all the benefits of a matting tile that is easily installed, rearranged or replaced. What makes it revolutionary is the interlocking system that creates a durable and seamless connection that can be effortlessly installed without glue. The 20 in x 20 in tiles cover sizeable areas easily and can be assembled on-site for installation in recessed frames in large entrances. This product is made from a durable natural rubber compound that is inherently resilient, slip resistant and withstands the heaviest foot traffic. Based on the unique design of the Oct-O-Flex™, the outdoor rubber mat scrapes shoes to stop dirt, grit and grime from entering the building with small drainage holes that are EU compliant for public entrances. Its smooth surface makes it suitable for wheeled access including: carts, wheelchairs, suitcases, etc. Designed for pedestrian traffic. Not suitable for carts with extremely heavy loads.

## 599 Oct-O-Flex™

**Available Colors:** Black

Oct-O-Flex™ is a heavy duty outdoor entrance mat made with tough SBR rubber to remain flexible and withstand extreme cold and the harshest of weather conditions. The unique design has holes to drain water and debris away from the entrance, while the smooth top surface and beveled edges on all four sides make it wheel chair and cart friendly. A raised knobbed underside combined with the weight of the mat helps to eliminate mat movement. Oct-O-Flex™ is the perfect choice for outside high traffic areas such as schools, retail stores, hospitals, nursing homes, or any other area where cart or wheelchair traffic is common.

Designed for pedestrian traffic. Not suitable for carts with extremely heavy loads.

## 599 Oct-O-Flex™ Connectable

**Available Colors:** Black

Oct-O-Flex™ Connectable is a heavy duty outdoor entrance matting system that can be used for large entryways or recessed wells. Made with tough SBR rubber, Oct-O-Flex™ Connectable remains flexible even in extreme cold and can withstand the harshest of weather conditions. A connecting system can be used to link multiple mats together to cover larger areas, while a unique large hole drainage system carries water away from the walking surface. Oct-O-Flex™ Connectable begins the scraping process removing dirt and debris from shoes before it's tracked inside.

Designed for pedestrian traffic. Not suitable for carts with extremely heavy loads.

## 620 Diamond Flex-Lok™

**Available Colors:** Black, Black/Yellow

Diamond Flex-Lok™ is a high-performance modular matting system that combines the durability and toughness of an industrial mat with true ergonomic support and comfort. The ergonomic properties of Diamond Flex-Lok™ are the result of a multi-tiered footing design that elevates the mat off the floor, creating air pockets that allow the mat to flex with the weight of the worker. A large hole drainage system facilitates the removal of liquids and debris from the work area while a pronounced raised diamond pattern on the mat surface, and an inverted-V pattern on the ramps provide additional traction. Diamond Flex-Lok™ is manufactured from 100% recycled PVC for greater resistance to industrial chemicals, cutting fluids, oils and greases. A unique interlock system that comes apart only when you want it to allows for easy reconfiguration.

## 621 Diamond Flex-Lok Solid™

**Available Colors:** Black, Black/Yellow

Diamond Flex-Lok™ Solid is a high-performance modular matting system that combines the durability and toughness of an industrial mat with true ergonomic support and comfort. The ergonomic properties of Diamond Flex-Lok™ Solid are the result of a multi-tiered footing design that elevates the mat off the floor, creating air pockets that allow the mat to flex with the weight of the worker. The solid-top design has a pronounced raised diamond pattern on the mat surface, and an inverted-V pattern on the ramps to provide additional traction. Diamond Flex-Lok™ Solid is manufactured from 100% recycled PVC for greater resistance to industrial chemicals, cutting fluids, oils and greases. A unique interlock system that comes apart only when you want it to allows for easy reconfiguration.

# 650 Niru® Cushion-Ease® 650FR Niru® Cushion-Ease®

**Available Colors:** Black

**Niru® Cushion-Ease®** is a high performance modular anti-fatigue matting system made with a 100% Nitrile rubber compound. Providing unmatched durability and performance in harsh wet environments, the Nitrile rubber offers greater resistance to a variety of commonly found caustic chemicals, cutting fluids, animal fats, oils, and greases. Large holes provide excellent drainage and aeration leaving a dry, clean work area. All Cushion-Ease® mats have a male/female interlocking system and are compatible with NoTrax® M.D. Ramps for easy on-site custom configurations and trip-resistant platforms. Niru® Cushion-Ease® mats can be combined with other Cushion-Ease® family products. Also available in a fire retardant version (650SFR)

**Niru® Cushion-Ease® (FR)** is a fire retardant, modular anti-fatigue matting system made with a 100% Nitrile rubber compound

## 651 FR M.D. Ramp System®

**Available Colors:** Black, Orange, Yellow, Terra Cotta

The M.D. Ramp System™ (FR) is a fire retardant ramping system that is designed for use with the Cushion-Ease® family of floor mats. The addition of this product creates a bevelled edge for easy access onto or off of the work platform. All ramp lengths fit the male/female interlocking system on Cushion Ease floor mats. This product is bevelled and melded with metered corners and a protruding tab that locks together the two adjoining ramps for a secure, professional corner. Square edges can be achieved by trimming off the mitre using the cut line on the bottom of the ramp.

## 653 Brake Fluid Resistant M.D. Ramp System®

The M.D. Ramp System™ is a brake fluid resistant ramping system that is designed for use with the Cushion-Ease® family of floor mats. The addition of this product creates a bevelled edge for easy access onto or off of the work platform. Made from a 100% nitrile base rubber compound. All ramp lengths fit the male/female interlocking system on Cushion Ease floor mats. This product is bevelled and melded with mitred corners and a protruding tab that locks together the two adjoining ramps for a secure, professional corner. Square edges can be achieved by trimming off the mitre using the cut line on the bottom of the ramp.

# 656 Niru® Cushion-Ease® Solid

**Available Colors:** Black, Black/Yellow

Diamond Flex-Lok™ is a high-performance modular matting system that combines the durability and toughness of an industrial mat with true ergonomic support and comfort. The ergonomic properties of Diamond Flex-Lok™ are the result of a multi-tiered footing design that elevates the mat off the floor, creating air pockets that allow the mat to flex with the weight of the worker. ## 656 Niru® Cushion-Ease® Solid 656FR Niru® Cushion-Ease® Solid

**Available Colors:** Black

Niru® Cushion-Ease® Solid is a high performance modular anti-fatigue matting system made with a 100% Nitrile rubber compound. Providing unmatched durability and performance in harsh environments, the Nitrile rubber offers greater resistance to a variety of commonly found caustic chemicals, cutting fluids, animal fats, oils, and greases. The solid-top version has a textured surface for added traction and is easy to sweep clean. All Cushion-Ease® mats have a male/female interlocking system and are compatible with Notrax® M.D. Ramps for easy on-site custom configurations and trip-resistant platforms. Niru® Cushion-Ease® Solid mats can be combined with other Cushion-Ease® family products.

Also available in a fire retardant version (656SFR)

## 660 Cushion-Ease® ESD - Dissipative (Perforated)

## 661 Cushion-Ease® ESD - Dissipative (Solid)

**Available Colors:** Black, Black/Yellow

**Cushion-Ease® ESD** Dissipative static control floor mats are part of the Solutions™ family of products. This specially formulated rubber floor mat is designed to drain static electricity from the worker safeguarding sensitive machinery and delicate circuitry. Large holes provide excellent drainage and aeration when used in wet environments leaving a dry, clean work area. All Cushion-Ease® mats have a male/female interlocking system and are compatible with Notrax® M.D. Ramps for easy on-site custom configurations and trip-resistant platforms. Cushion-Ease® ESD mats can be combined with other Cushion-Ease® family products.

## 662 Cushion-Ease® Antibacterial (Perforated)

Part of the Solutions™ family of products, the **Cushion-Ease® Antibacterial mat** is specially formulated to inhibit the growth of fungus and bacteria. The base rubber compound is 100% Nitrile and provides the highest degree of resistance to many commonly found chemicals, cutting fluids, animal fats, oils, and greases. Large holes provide excellent drainage and aeration leaving a dry, clean work area.

## 663 Cushion-Ease® Brake Fluid Resistant (Perforated)

Part of the Solutions™ family of products, the **Cushion-Ease® Brake Fluid Resistant mat** is made with a 100% EPDM rubber compound that allows it to withstand the harshest wet environments where brake fluids, chemicals, cutting fluids, animal fats, oils, and greases are often found. A large hole drainage system facilitates the removal of liquid and debris for a dry, safe work area. In addition, the Cushion-Ease® Brake Fluid Resistant mat has fire retardant and antimicrobial properties for use in the most extreme applications

## 664 Cushion-Ease® ESD - Conductive (Perforated)

## 665 Cushion-Ease® ESD - Conductive (Solid)

Cushion-Ease® ESD Conductive static control floor mats are part of the Solutions™ family of products. This specially formulated rubber floor mat is designed to drain static electricity from the worker safeguarding sensitive machinery and delicate circuitry. Large holes provide excellent drainage and aeration when used in wet environments leaving a dry, clean work area

The solid-top version has a textured surface for added traction and is easy to sweep clean

**Available Colors:** Black

# 680 Safety Trax™

Safety Trax™ are slip resistant pads that can be affixed to surfaces such as inclines and ramped walkways to increase friction and provide a safer walking surface. Safety Trax™ is embedded with silicon carbide particles for aggressive traction and the pressure adhesive backing allows for easy “peel and stick” installation.

## 730 V-Groove Corrugated Runner™ - Vinyl

The **730 model of the V-Groove Corrugated Runner™** is made from a durable vinyl compound that features a rib-tooth design to improve traction. The vinyl runner protects floors, creates a barrier to cold flooring substrates, and has a silencing effect over noisy tile. The low profile matting allows for easy on/off cart traffic and can also be used as a liner for maintenance and tool carts.

**Available Colors:** Black

## 735 Round Rib Runner

The wider **spaced 735 rounded rib** design of this vinyl runner allows for easy clean-up while providing sure footing and floor protection. Made of durable vinyl, this runner has a low profile allowing for easy on/off cart traffic.

**Available Colors:** Black, Brown, Grey

## 737 Diamond Plate Runner

The high profile diamond-embossed top surface offers exceptional non-directional traction. Made of durable vinyl, this runner is easy to sweep clean and has a low profile allowing for easy on/off cart traffic. Diamond Plate Runner is recommended for applications where safety and slip protection is needed with minimal anti-fatigue value such as aisles, warehouses, vending areas, and industrial passageways.

**Available Colors:** Black/Yellow, Black, Gray

## 742 Bubble-Top Runner

Bubble-Top Runner is made from a durable heavy-duty vinyl compound. The bubble-top design offers added traction and ergonomic support in dry work areas. Bubble-Top Runner is available in rolls and custom lengths providing floor protection and a barrier to cold floors.

**Available Colors:** Grey, Black, Black/Yellow

## 750 V-Groove Corrugated Runner™ - Rubber

The 750 model of the V-Groove Corrugated Runner™ is made from a long-lasting rubber compound that features a rib-tooth design and provides sure footing and floor protection. It also creates a barrier to cold flooring substrates, and has a silencing effect over noisy tile. The low profile matting allows for easy on/off cart traffic and can also be used as a liner for maintenance and tool carts.

**Available Colors:**

Black

## 755 Niru® Versa Runner®

Made from a 100% Nitrile rubber compound, Niru® Versa Runner® is designed to withstand harsh chemicals, greases, oils, and animal fats while creating a slip resistant work surface. Slotted perforations allow for drainage and a scraper-rib design runs side-to-side on the mat for added traction. The ribbed underside enhances the anti-fatigue value of the mat and also helps to channel liquid away from the work area. It's low profile allows for use in areas with high cart traffic.

**Available Colors:** Black, Orange, Gray, Red

## 758 Niru® Knob-Top Runner™

Made from a 100% Nitrile rubber compound providing the highest degree of resistance to many industrial chemicals, greases, oils, and animal fats, Niru® Knob-Top Runner® is designed for safety and traction. Its low profile allows carts to roll over the mat with ease. Niru® Knob-Top Runner® is reversible further extending the service life of the mat making it the perfect product for industrial and food service applications where a continuous length of comfort and anti-slip matting is needed.

**Available Colors:** Black, Orange, Gray, Red

**769 Clear Trax™**  
 Clear Trax™ is a durable heavy-duty clear PVC runner that protects carpet from debris and moisture in heavy traffic areas without sacrificing the aesthetic appeal of the underlying carpet. A ribbed top surface provides traction and is easy to sweep clean, while mini-spikes on the underside of the mat grips the carpet and minimizes mat movement. Clear Trax™ is recommended for use on loop-pile carpeting.

**Available Colors:** Clear

## 770 Marble-Top Runner

Marble-Top Runner is made from a tough rubber compound with a stylish marble pattern design. The smooth top surface is easy to sweep clean and it's low profile allows for easy on/off cart traffic. Marble-Top Runner is available in rolls and custom lengths providing floor protection and a barrier to cold floors in areas where aesthetic appeal might be more of a consideration.

**Available Colors:**  
 Blue, Grey, Beige, Black, Walnut

## 780 Pebble-Top Runner

The Pebble-Top Runner is made with a resilient rubber compound and a pebble-embossed surface providing long-lasting traction and floor protection for a variety of industrial applications. Available in rolls and custom lengths, this runner is the perfect product for long warehouse and store-room aisle ways creating a barrier to cold floors.

**Available Colors:** Black

## 783 Sof-Tyle™ Antimicrobial

The Sof-Tyle™ Antimicrobial anti-fatigue floor mat combines a durable vinyl top surface with a closed cell foam backing that provides the ultimate in comfort and ergonomic support for workers required to stand for extended periods of time. An EPA registered antimicrobial agent that inhibits the growth of most Gram positive and Gram negative bacteria and fungus is manufactured directly into both the vinyl top surface and the foam backing. This ensures that the antimicrobial properties won't wear-off over time like many post applied topical agents. Like all Notrax® laminate floor mats, Sof-Tyle™ utilizes RedStop™ non-slip backing technology which keeps the mat from moving on smooth surface flooring that is commonly found in these environments. Although intended for use in dry environments, the vinyl top surface is easy to wipe clean and the closed-cell foam backing will not absorb fluids so occasional spills can be wiped up quickly and easily without soaking into the mat.

**Available Colors:** Healthcare Green

## 825 Cushion-Stat™ w/Dyna-shield®

Cushion Stat™ is a dissipative/anti-static mat made from a Notrax® exclusive Dyna-Shield® PVC sponge, specially formulated to absorb static electricity keeping sensitive electronic circuitry safe from damage. Cushion-Stat™ with Dyna-Shield® is manufactured with a tough protective top layer that increases the strength of the product and provides long lasting wear. The non-directional pebble embossed top surface is easy to clean and provides excellent traction.

**Available Colors:** Brown, Black, Grey, Black/Yellow

## 826 Diamond Stat™

Diamond Stat™ is a dissipative/anti-static mat designed to absorb static electricity. The mat drains static electricity from the worker keeping sensitive circuitry from being damaged. The durable vinyl diamond-plate design provides non-directional traction, and is easy to clean. The top surface is combined with a dense closed cell foam base utilizing Notrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. Like all NoTrax® laminate floor mats, Diamond Stat™ utilizes RedStop™ non-slip backing technology which keeps the mat from moving on smooth surface flooring

**Available Colors::** Black

## 830 Switchboard Matting

Non-conductive switchboard matting is designed to provide insulation for the worker. Made from a PVC compound, the mat prevents the worker from being grounded, thereby eliminating the possibility of electrical shock. The corrugated saw-tooth top surface provides increased traction and is easy to sweep clean.

**Available Colors:** Black, Black/Yellow

## 831 Diamond Switchboard Matting

Diamond Switchboard Matting is a non-conductive floor matting made from a PVC compound, designed to provide insulation for the worker. The mat prevents the worker from being grounded, thereby eliminating the possibility of electrical shock. The diamond plate top surface provides increased traction, and is easy to sweep clean.

**Available Colors:** Black, Black/Yellow

Available Colors: Green, Blue

Available Colors:: Black, Blue

Available Colors: Grey

Available Colors: Black

## 834 Military Switchboard Mat - Type 1

This heavy-duty matting meets the MIL-DTL-15562G specification for insulating, switchboard matting, and sheet floor covering and is approved for use by the Department of the Navy and all Departments and Agencies of the Department of Defense. This non-conductive floor mat is made from a vinyl compound, designed to provide insulation that prevents the worker from being grounded, thereby eliminating the possibility of electrical shock. Military Switchboard Matting - Type I is fire retardant, and its smooth marble-look top surface is easy to sweep or mop clean.

## 835 Military Switchboard Mat - Type 2

### Features & Benefits

Electrically Insulative Type 2 PVC compound

Fire retardant

Smooth surface - Easy to sweep or mop clean

Each square foot of this matting is tested in conformance with MIL-DTL-15562G specifications:

Class 2 Di-electric Strength: 30,000 volts

Proof test of 20,000 volts

Recommended maximum use voltage: 3,000

## 836 Military Switchboard Mat - Type 3

### Features & Benefits

Electrically Insulative Type 3 PVC compound

Slip resistant, Fire retardant

Diamond-plate surface - Added traction

Each square foot of this matting is tested in conformance with MIL-DTL-15562G specifications:

Class 2 Di-electric Strength: 30,000 volts

Proof test of 20,000 volts

Recommended maximum use voltage: 3,000

## 850 Niru® Cushion-Ease® GSII™

850 Niru® Cushion-Ease® GSII (FR) is a fire retardant

Diamond Switchboard Matting is a non-conductive floor matting made from a PVC compound, designed to provide insulation for the worker. The mat prevents the worker from being grounded, thereby eliminating the possibility of electrical shock. The diamond plate top surface provides increased traction, and is easy to sweep clean.

## 856 Niru® Cushion-Ease® GSII™ Solid

856 Niru® Cushion-Ease® GSII Solid (FR) is a fire retardant GSII™ technology offers the ultimate in durability and performance in the harshest environments  
100% Nitrile rubber compound for unmatched resistance to commonly found chemicals, cutting fluids, oils, greases, and animal fats  
Silicon Carbide grit surface provides long lasting traction  
A unique multi-nib support design offers exceptional fatigue relief and aeration  
Solid top design  
Easy to snap together modular matting system for on-site custom configurations  
Optional nitrile rubber ramps available for trip-resistant platform (551 M.D. Ramp System)  
Can be mixed and matched with any of the Cushion-Ease® family mats

Also available in a fire retardant version (856SFR)

**Available Colors:** Black

## 920 Cushion-Lok™ Solid

The Cushion-Lok™ Solid-Top Series is a tough PVC based workstation mat for dry applications where anti-fatigue and anti-slip properties are a necessity. The PVC construction makes it especially resistant to chemicals found in harsh environments. The individual mats can be combined with bevelled ramps making it the perfect solution for custom configurations as well as standalone mats. The 920 floor mat can be interlocked with the 520 (perforated) series for a truly customized configuration.

**Available Colors::** Black, Black/Yellow

## 922 Cushion-Lok™ Solid w/Grip-Step™

Features & Benefits

A tough PVC based workstation mat made from 100% recycled materials (black only)  
Solid top mat that can be interlocked with the #520 Series or used as a standalone mat  
The worker is elevated on a series of traction blades that provides sure-footing and comfort  
Thick gritted top surface layer for extremely slippery environments  
Six-inch wide bevelled ramps are available to eliminate trip hazards and allows easy access onto and off of the work platform  
Stock size mats have bevelled edges permanently affixed on 3 sides for a true workstation mat  
Also available in an HD (Heavy-Duty) version with a reinforced bottom surface design for handling

**Available Colors::** Black, Black/Yellow

## 950 Knee Rx™

951 HD version offers a durable heavy-duty rubber bottom surface for long-lasting wear in the roughest environments

### Features & Benefits

Designed for comfort and durability in extreme kneeling applications

For use on gravel, asphalt, concrete, dirty/oily surfaces, tile & wood flooring, metal grating, grass

Nitrile/PVC foam blend for the highest degree of resistance to oils and greases

Full 1" thick for the ultimate in comfort

Self-extinguishing, non-conductive, silicone free material

Built-in handle easy to carry or hang up

**Available Colors:** Black

## 970 Marble Sof-Tyle™ Grande™

The Marble Sof-Tyle™ Grande™ anti-fatigue floor mat provides the ultimate in comfort and ergonomic support at a full ONE-INCH thick. The stylish smooth marble-pattern design complements any décor and the durable rubber top surface is easy to sweep clean or damp mop. The top surface is combined with a dense closed cell foam base utilizing Notrax® exclusive UniFusion™ technology, this virtually eliminates the possibility of de-lamination. All Notrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

**Available Colors::** Blue, Grry, Beige, Black, Walnut

## 974 Ergo Mat™ Grande™

The Ergo Mat™ Grande™ anti-fatigue floor mat provides the ultimate in comfort and ergonomic support at a full ONE-INCH thick. It has a rubber corrugated ribbed top surface that provides directional traction to reduce slips, and offers superior anti-fatigue support for applications where workers are required to stand for long periods of time. The top surface is combined with a dense closed cell foam base utilizing Notrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. All Notrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

**Available Colors::** Black

## 975 Cushion Trax® Ultra™

### Features & Benefits

Overall mat thickness is 3/4 inch  
 Long-lasting vinyl top surface made from 100% recycled materials  
 Diamond-plate surface texture provides added traction  
 Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology  
 UniFusion™ bond guaranteed for the life of the mat – See warranty for details  
 Sloped bevelled edges to reduce trip hazards and allows easy access onto and off of mat  
 Certified by the NFSI (National Floor Safety Institute)  
 RedStop™ non-slip backing to eliminate mat slippage  
 Custom lengths available (2',3', 4' and 5' widths) • Splicing option available for custom widths

**Available Colors:** Grey, Black, Black/Yellow

## 970 Marble Sof-Tyle™ Grande™

The Marble Sof-Tyle™ Grande™ anti-fatigue floor mat provides the ultimate in comfort and ergonomic support at a full ONE-INCH thick. The stylish smooth marble-pattern design complements any décor and the durable rubber top surface is easy to sweep clean or damp mop. The top surface is combined with a dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology, this virtually eliminates the possibility of de-lamination. All NoTrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

**Available Colors::** Blue, Grey, Beige, Black, Walnut

## 974 Ergo Mat™ Grande™

The Ergo Mat™ Grande™ anti-fatigue floor mat provides the ultimate in comfort and ergonomic support at a full ONE-INCH thick. It has a rubber corrugated ribbed top surface that provides directional traction to reduce slips, and offers superior anti-fatigue support for applications where workers are required to stand for long periods of time. The top surface is combined with a dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. All NoTrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

**Available Colors::** Black

## 977 Woodgrain Sof-Tyle™ Grande™

### Features & Benefits

Smooth faux woodgrain vinyl top surface resists staining and easy to clean

Dense closed cell foam base for comfort

Bonded together using NoTrax® exclusive UniFusion™ technology - Bond guaranteed for the life of the mat (See warranty for details)

Sloped beveled foam on all 4 undersides for easy access onto and off of mat

RedStop™ non-slip backing technology - eliminates mat slippage on smooth surface floors

Custom lengths available (3' width)

**Available Colors:** Cherry, Oak

## 979 Saddle Trax™

Saddle Trax™ is a thicker, heavier and stronger anti-fatigue floor mat, engineered to meet the toughest requirements of today's industrial applications. At a full ONE-INCH thick, it is the ultimate anti-fatigue product maximizing worker productivity and comfort. The durable vinyl diamond-plate design provides non-directional traction, and is easy to clean. The top surface is combined with a dense closed cell foam base utilizing Notrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. All Notrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

**Available Colors::** Grey, Black, Black/Yellow

## 980 Pebble Trax Grande™

Pebble Trax® Grande™ is a full ONE-INCH thick anti-fatigue floor mat providing the ultimate in comfort and ergonomic support in dry environments. The pebble-embossed rubber top provides non-directional traction, is easy to clean, and resists exposure to sparks from welding. Made with a resilient SBR rubber compound, the top surface is combined with a dense closed cell foam base utilizing Notrax® exclusive UniFusion™ technology virtually eliminating the possibility of de-lamination. All Notrax® laminate floor mats come standard with RedStop™, a uniquely engineered non-slip backing technology that eliminates the slipping and sliding of floor mats on smooth surface flooring such as tile, wood, marble, and treated concrete.

**Available Colors::** Black

## 982 Bubble Trax Grande™

### Features & Benefits

Overall mat thickness is a full ONE-INCH

Long-lasting vinyl top surface

Bubble top surface texture provides added cushioning comfort

Combined with dense closed cell foam base utilizing NoTrax® exclusive UniFusion™ technology

UniFusion™ bond guaranteed for the life of the mat – See warranty for details

Sloped beveled edges to reduce trip hazards and allows easy access onto and off of mat

RedStop™ non-slip backing to eliminate mat slippage

Custom lengths available (2', 3', 4' and 5' widths)

**Available Colors:** Grey, Black, Black/Yellow

## 990 Dura Trax Grande™

Dura Trax Grande™ is a full ONE-INCH thick, heavy-duty anti-fatigue floor mat representing the ultimate in comfort and durability for today's industrial environments. It combines a rubber top surface with a dense sponge backing utilizing the Notrax® exclusive UniFusion™ bonding process. The resulting finished product is virtually a single piece eliminating any possibility of de-lamination. The rubber top surface provides a noticeably softer and more comfortable work surface and a diamond-plate design offers greater slip resistance and is easy to sweep or mop clean. Like all Notrax® made laminate floor mats, Dura Trax Grande™ incorporates RedStop™ non-slip backing. RedStop™ eliminates the slipping and sliding of Notrax® floor mats on all types of smooth floor surfaces such as vinyl composite tile, painted or epoxy coated concrete, vinyl sheet flooring, carpet, and ceramic tile.

**Available Colors::** Grey, Black, Black/Yellow

DND (Do Not Disturb) Mat - Foam

DND (Do Not Disturb) Mat - Printed

The DND foam mat is a visual notification mat intended for use in areas that are considered "no interruption" or "Do Not Disturb" zones. The bright red color immediately notifies co-workers that you are involved in a task that requires intense focus and concentration and should not be disturbed. Made from a 3/8" thick PVC foam, the DND foam mat offers ergonomic support and relief from leg and back pain. The lightly pebbled top surface offers traction and is easy to sweep clean.

**Available Colors:** Red

## T17 Superfoam®

Superfoam® is a durable foam anti-fatigue mat designed especially for extreme ergonomic comfort. Made from a closed cell PVC Nitrile foam blend, Superfoam® does not absorb liquids and is highly resistant to greases, oils, and industrial chemicals such as cutting fluid. This allows it to be used in areas where occasional overspray and dripping occur.

**Available Colors:** Black

## 035 Skate-Spike Mat™

Skate-Spike Matting™ is a durable vinyl runner with a linear ribbed top surface that protects floors from spikes or skates.

**Available Colors:** Black

## 045 Weight Room Mat

This heavy-duty rubber mat absorbs the crush of free weights and exercise equipment while protecting the floor. The extra tough dense rubber compound keeps the mat from buckling or curling under extreme weight, while its textured top surface provides traction.

**Available Colors:** Black

## Chemical Adhesive - 8 oz. bottle

An 8 ounce bottle of chemical adhesive used for on-site gluing together of modular rubber mats. Specially formulated for use with vinyl and rubber materials, the fast-drying adhesive eliminates the need for an adhesive activator. The chemical adhesive creates a permanent water-tight bond.

## Anti-static Floor Mat Grounding Cord

This grounding cord is an accessory designed for use with anti-static floor mats. The mat is formulated to absorb static electricity keeping sensitive electronic circuitry safe. The grounding cord is affixed to the mat and routes the static electricity away from the worker to a common grounding point like the ground on an electrical wall outlet.

## 082 Splicing Kit

A kit consisting of a roll of vinyl patch material and a bottle of adhesive used for splicing together laminate mats on-site to create custom configurations and longer runs. Contents: 5" x 10' roll of vinyl patch material, small bottle of adhesive. For on-site splicing of blunt-cut laminate mats

## 083 Standard Bevelled Nosing

**Features & Benefits**  
Apply to carpet matting that is cut onsite for a factory-finished appearance. Available in a variety of corresponding colors. Nosing lip is adhered underneath mat and produces the 1" "factory-look" bevelled border. #083K Nosing Kit – includes 25 feet of Nosing, 4 ounce can of adhesive and 1 application roller.

**Available Colors:** Black, Brown, Burgundy, Green, Blue

## 084 Heavy Duty Bevelled Nosing

**Available Colors:** Black

Heavy-duty bevelled nosing is used to eliminate trip hazards by creating a gradual elevation on the straight cut edges of carpet mats. Apply HD bevelled nosing to carpet mats that are cut on-site for a factory-finished appearance. HD Nosing should be used with heavier weight mats that require a stronger than average border.

## 085 Velcro® Carpet Anchor

Velcro® is used to eliminate the movement of vinyl-backed carpet mats when placed on loop pile carpeting. Individual self-adhesive strips of Velcro® (Male side) can be affixed to the underside of the mat to "anchor" it in place.

## 090 Mat Hold

Mat Hold is a self-adhesive mesh pad used to eliminate mat movement by gently adhering a mat to the floor. Typically used on smooth surface flooring, Mat Hold can also be used on carpeting. The light adhesive is re-positionable and will not leave behind any residue or stain the underlying floor or carpet.

## 086 Vinyl Adhesive

Vinyl adhesive is used to attach bevelled nosing to unfinished ends of custom cut carpet mats to give them a factory-finished look. The adhesive comes in a 4 or 16 ounce can with a brush top applicator.

## 096 Application Roller

An application roller is used for the on-site application of Velcro® and bevelled nosing. The roller provides even and consistent pressure to ensure proper adhesion.
