* Different batches may show a color variation

Dimensions**

1186.9 x 948.9 mm / 46.73" x 37.36"

Description

The cloud that redefines the traditional concept of acoustic clouds. A generative structure that allows to create a set of combinations that not only optimize the acoustic environment but also add aesthetic values to any space.

The first set of clouds from the GEN_VMT collection, winner of the Red Dot Product Design Award 2020, raises the bar to a higher level. Sustainable and extremely durable, PENRAY 01 Cloud can significantly reduce excess noise in various settings, adding an innovative interior design asset to an architectural project. Plus, being a suspended acoustic element, it presents twice the area of absorbing material exposed next to a common acoustic panel.

PENRAY 01 is a perfect match between functional properties and aesthetics. Based on a modular strategy we can create different interior design combinations with a single unit. The smart use of color and the potential of 3D effect reinforce the potential of this generative pattern. GEN_VMT PENRAY 01 Clouds come in single unit boxes, with a range of 10 colors to match the ones used in GEN_VMT PENRAY 02 Tiles, offering the chance to make endless combinations for decoration of walls and ceilings.

** For each panel. Please notice that the dimensions of these panels have a tolerance of +/- 2mm

Packing Information

Units per box: 1
Box Dimensions: 1060 x 1480 x 65mm / 41.73" x 58.27" x 2.56"
Box Gross Weight: TBA

Technical Information

Material: VicPET Wool, with lacquered steel sheet structure.

Fire Rating:
- Europe: Euroclass B (raw material)
- USA: Class A (ASTM-E84)

Installation: Magnetic and mechanical suspended fixation (included).

Certifications:

CERTIFIED INDOOR AIR QUALITY ACS GLOBAL SERVICE ™
INDOOR ADVANTAGE GOLD BUILDING MATERIALS

ÉMISSIONS DANS L'AIR INTÉRIEUR*
