## Profile

Fixing

**Dimensions: 2300/3200x150x24mm**

Finishing

EPW's revolutionary Titanium Deck® range guarantees you a wood look and feel, with a high longevity. This is a new technology in which the core of the deck is made of HDM (high density mineral WPC core), and the outside is made of a modified polymer (Nanotech Shield).

Titanium Deck® is a solid profile intended for high traffic. Its fixation system is made through a POM clip, leaving a joint of only 5mm.

Available colors

Rustik Grey

Sucupira

Cumaru

Artic Ice

- High resistance to scratches and stains
- HDM Core
- High UV resistance
- Fire class Bfl – S1
- Low water absorption
