

Multifuser DC3

PROFESSIONAL AUDIO / Hi-FI & HOME CINEMA

Description

Multifuser DC3 is a bi-dimensional diffusion panel upgraded from famed DC2 with built-in holder ribs so it can be installed to a wall with a VicFix fixation system, using VicFix Mini (supplied) or VicFix J Profile 2m. It continues to be compatible with Flexi Glue Ultra, which is required for ceiling installation.

Multifuser DC3 keeps all the advantages of DC2. It provides multi-reflection on both vertical and horizontal planes in sound critical spaces, and performs on mid and high frequencies, brightening and clarifying sound.

Made from high quality EPS (Expanded Polystyrene), Multifuser DC3 is notable not only for its effective performance in solving problems like lack of speech intelligibility or music definition, but also for its attractive design that fits perfectly in any kind of room.

- High efficiency 2 dimensional Root Diffuser + Top surface angle.
- Easy to install
- Available in 2 different colours
- Can be painted with water-based paints

Acoustic Performance

Available Finishes*
